

# LINTALERT®

## Dryer Safety Alarm

New  
Home Safety  
Device

### New Home Protection Device

The LintAlert® warns of dryer venting issues before they become a danger. Lint build-up and crushed pipes waste energy, increase your utility bills and create a very real fire hazard. With the LintAlert®, you'll save money and protect your home and family.

### Common Causes of Dangerous Back Pressure:

- Normal Lint Accumulation in the Dryer Duct
- Kinked or Crushed Exhaust Hose
- Termination Hood Blockage

### LintAlert® Solution:

- Helps Save Energy
- Helps Prevent Dryer Fires

According to the US Fire Administration, 15,500 dryers catch fire every year. With the LintAlert® providing constant updates on your dryer's health, you'll help reduce those statistics and rest easy knowing your home is safer.

This new dryer safety alarm is an important addition to every household's fire safety and prevention plan. Get yours today.

**1-800-803-ALERT**

810 Saturn Street, Suite 21  
Jupiter, FL 33477-4456

## *Protect Your Home & Family*

**Detect Dryer Exhaust Issues  
Before They Become Dangerous**

Part No. ALRT31

## *Save Energy & Prevent Dryer Fires*

### **Airflow Efficiency Indicator**

As lint builds up over time and restricts airflow, the LED light bar blockage indicator progressively illuminates.

Armed with this information, you'll always know how safely and efficiently your dryer is exhausting.
